

Life is all around us, hidden in plain sight.

Explore extreme environments on Earth and gain perspective about the possibilities of life in our Solar System and beyond. Explore a microbial colony, navigate a rover, and use light to reveal faraway planets.

SIZE

1,800-2,500 sf

RENTAL FEE

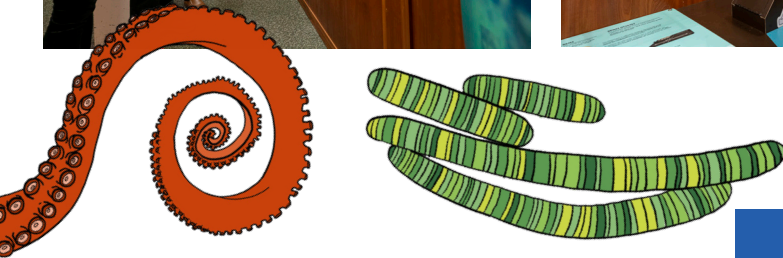

\$45,000 for 3-1/2+ months

SHIPPING

Inbound only | 1 truck
Accompanied by technical manual, educational materials, and marketing kit

LEARNING GOALS

- ◆ Astrobiologists study Earth to help them in the search for life in space
- ◆ Life is a dataset of 1—discovering life in space could change how we feel about our world
- ◆ Using new tools and technologies, we could discover habitable planets outside of our Solar System

Life on the Edge was produced by the Sciencenter in partnership with SPIF, and was made possible with generous support from NASA
