

ATTACK OF THE

BLOOD SUCKERS

IT'S THE
SCIENCE OF
WHAT'S
EATING YOU!

EXPLORE THE SCIENCE OF WHAT'S BITING YOU!

Learn about mosquitos, fleas, ticks, leeches and other bloodsucking parasites in this skin-crawling exhibition. Through 12 icky exhibits, visitors learn the what, why, who, and when of how parasites live, work, and play!

SIZE

1,500-2,200 sf

SHIPPING

Inbound only | 1 truck

Accompanied by technical manual, educational materials, and marketing kit

LEARNING GOALS

- Bloodsucking parasites are integral to ecosystems around the world
- There are many type of bloodsuckers including insects, arthropods, and even birds
- Bloodsuckers need blood meals to survive and reproduce

Attack of the Bloodsuckers was developed by the Environmental Exhibit Collaborative (EEC) and funded by Jane's Trust, Institute of Museum and Library Services (IMLS), and the Cabot Family Charitable Trust
